SUMMARY

Telerik Academy graduate with a passion for programming and software innovation. Junior developer focused on building scalable web applications, seeking an internship to apply and grow my skills.

PROJECTS

Collab-Messenger

11/2024 - 12/2024

<https://github.com/Collab-Messenger/Collab-Messenger.git>

Discord-like web app

- Developed a feature-rich web application similar to Discord over the course of one month. The app enables users to message each other, create and join teams, make video calls, add friends, and manage settings through an admin panel. Built using JavaScript, React, Tailwind CSS, Daisy UI, and Vite, the project focused on responsive design, real-time communication, and user-friendly navigation to deliver a seamless experience.

Food Forum

11/2024 - 11/2024

Link available upon request

Forum for sharing ideas for different recipes

- In the app users can create, like, comment, or reply to recipes. There are admin users who can block or make admins and vice versa. Blocked users can only read posts and comments. Built using JavaScript, React, Daisy UI, and Vite, the project focused on responsive design, real-time communication, and user-friendly navigation to deliver a seamless experience.

ADDITIONAL SKILLS

React JavaScript HTML CSS Tailwind CSS Daisy UI

FireBase Git

EXPERIENCE

Quality Assurance

Genius Sports

01/2023 - 07/2023 Sofia, Bulgaria

- Tested software to find and fix problems.
- Focused on continuous improvement.
- Found ways to improve testing and client support.

WHAT I AM PROUD OF

Consistency

I was able to learn that effort pays off, by staying consistent in my studies, work and life in general

Team spirit

It's safe to say basketball is big part of my life and enabled me to overcome physical and mental challenges

Georgi Kanchev

EDUCATION

Alpha JavaScript Track

Telerik Academy

07/2024 - 12/2024

Computer Science Bachelor

Plovdiv University

10/2018 - Present

STRENGTHS

Analytical

I honed my analytical skills by working on a data project, identifying patterns in complex datasets, and making data-driven decisions.

Teamwork

I developed strong teamwork skills through my basketball background and collaborating on projects, focusing on communication and achieving shared goals.

Self-critical

Regularly reflect on my performance, stay open to feedback, and identify areas for improvement, applying these skills to continuously enhance my work in professional settings.

Time Management

I manage multiple tasks efficiently, prioritize, meet deadlines, and stay focused under pressure to ensure successful outcomes.

Problem-solving

When faced with challenges, I analyze the situation, identify efficient solutions, and adapt quickly to ensure successful results.

Attention to Detail

I focus on precision and accuracy in all tasks, carefully reviewing work to ensure high standards and spotting any errors before finalizing.
